ART DECO
COLLECTION

FURNITURE AT ITS FINEST..

Bevan Funnell aim to deliver the highest quality, British made furniture to private clients and interior designers. We specialise in creating furniture that is sophisticated, elegant and beautifully made with a high attention to detail. Our new collection has a distinctive and stylish Art Deco influence such as geometric shapes, dark woods matched with light fabrics and touches of metallic.

We have listened to our many clients over the last few years which has inspired us to produce a new contemporary collection. This new collection is available in a selection of stunning veneers including Macassar Ebony, American Walnut and Maple, as well as more unusual wood veneers such as Wenge and Zebrano.

We offer a comprehensive Bespoke/Custom furniture service – adapting our standard items or working to your own unique designs and ideas.

This exciting new range includes dining tables and chairs, side tables, coffee tables and consoles, desks, sideboards, bedroom cabinets and wardrobes, our most popular Art Deco dressing tables and a stunning new Cocktail Cabinet

BEVAN FUNNELL
CONTEMPORARY ENGLISH MADE
LUXURY FURNITURE

Bevan Funnell has a long tradition of offering a bespoke service to its customers. Working in partnership we can create from new or adapt any piece of furniture from our current or previous collections, and will undertake to create a truly unique piece of furniture based on your specification and requirements. Previous projects range from libraries and board room tables to much smaller projects such as bespoke desks and office furniture.

For Individual Pieces...

Our service begins with a discussion to explore your ideas, needs and requirements and to establish timescales and budget. It really doesn't matter if you only have a vague idea of what you would like, we're here to help you realise those ideas. We understand that this is your project and you should have a piece which fulfils your needs. Once we have established what your individual piece of furniture is going to look like, we will provide a quotation for it. Quotations are provided without any obligation.

For Larger Projects...

For larger projects we may recommend an on-site consultation. The project brief resulting from the discussion or consultation will be agreed and our in-house design team will then translate the brief into working drawings and specifications. These drawings and specifications, along with any relevant samples and the written quotation, will be sent to you for your consideration and approval.

When the brief has been approved these drawings will be turned into fully developed manufacturing plans and the raw materials required will be sourced. Using a combination of modern technology and traditional techniques your bespoke handcrafted furniture will be created.

Bespoke sideboard with drawers including cutlery inserts that was manufactured to a clients specification.
